Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

You can find two kinds of health-boosting pick-ups on every mission: Health Packs and First Aid Kits.

- You can carry up to three large Health Packs for later use. To use one to refill your health bar, press the D-button \downarrow .

NOTE: You can only carry Health Packs in Easy and Normal game modes.

- First Aid Kits are used instantly when you collect them, giving you an immediate health boost.

Press the L1 button to zoom in for accurate or long-distance targeting. The aim function only works with certain weapons.

- Use aim when equipped with the Sniper Rifle to take advantage of the double-zoom capability offered by its telescopic sights.

FIRING MODE

Some weapons have more than one firing mode: press the D-button \uparrow to choose the best mode for your current situation.

- Firing modes differ depending on which weapon you have equipped. For example, you can switch the AK47 between fully automatic fire, more controlled semi-automatic bursts, or precise single shots.

OBJECTIVES AND DIFFICULTY LEVELS

Each mission contains a number of Objectives, both Primary and Secondary. Primary Objectives are revealed as you progress through each mission, while Secondary Objectives must be discovered:

Blackmail	Find and destroy incriminating evidence obtained by the USA's enemies to safeguard American national security.
Intel	Collect vital intelligence data on terrorist activity.
Recon	Track down information that could help with your upcoming missions.
Armament	Discover hidden weapons throughout the levels.
Destruction	Smash enemy resources and more: find and destroy objects in each level.

☛ To view information about Secondary Objectives, select OBJECTIVES STATUS from the Pause menu.

You must accomplish all Primary Objectives to complete your current mission. To progress to the next mission, you may also need to complete a certain number of Secondary Objectives, depending on the chosen Difficulty level:

EASY	You only need to fulfill Primary Objectives.
NORMAL and HARD	You must accomplish all Primary and a number of Secondary Objectives, as specified at the start of the level.
BLACK OPS	The ultimate test: you must complete all Objectives.

NOTE: In Black Ops Difficulty, the  button displays the number of completed objectives for the current checkpoint area.

The Difficulty level also determines how many Health Packs are available in a mission and what completing the mission unlocks:

- Complete a mission at your chosen Difficulty level to unlock the next mission for play at the same Difficulty level and all easier levels.
- Complete the game on Hard Difficulty to unlock the Black Ops Difficulty level.
- Complete the game at Normal, Hard, and Black Ops Difficulty levels to unlock extra weapons.

Press the  button to pause the game, view your current objective status, and access game options. Select CONTINUE to return to the action.

- Select QUIT to exit your current game and be taken to the Main menu.

SAVING AND LOADING PROFILES

Create an Operator Profile to keep a personal record of your progress in *BLACK*. When Autosave is on, you are prompted to create a Profile after completing your first mission. Your progress through the game is saved to that Profile. You can also create a Profile manually.

CREATING A PROFILE:

NOTE: You must have a memory card (8MB) (for PlayStation®2) with at least 59 KB free inserted in MEMORY CARD slot 1 to create a Profile and save your progress.

1. From the Main menu, select OPTIONS and then PROFILE.
2. At the Profile screen, select NEW to create a new Profile, choose YES, and then enter a Profile name using the onscreen keyboard.
3. At the prompt choose YES or NO to turn Autosave on or off. When Autosave is on, your progress and any Options changes you make are automatically saved, overwriting data without confirmation.

NOTE: Turning Autosave off is not recommended, as progress and Options changes are not saved automatically. To save manually, choose SAVE from the Profile screen.

4. Select an empty slot to save your Profile to or choose to overwrite an existing Profile. You can create up to three separate Profiles.
5. Your new Profile is saved. Choose CONTINUE to return to the Profile menu.
